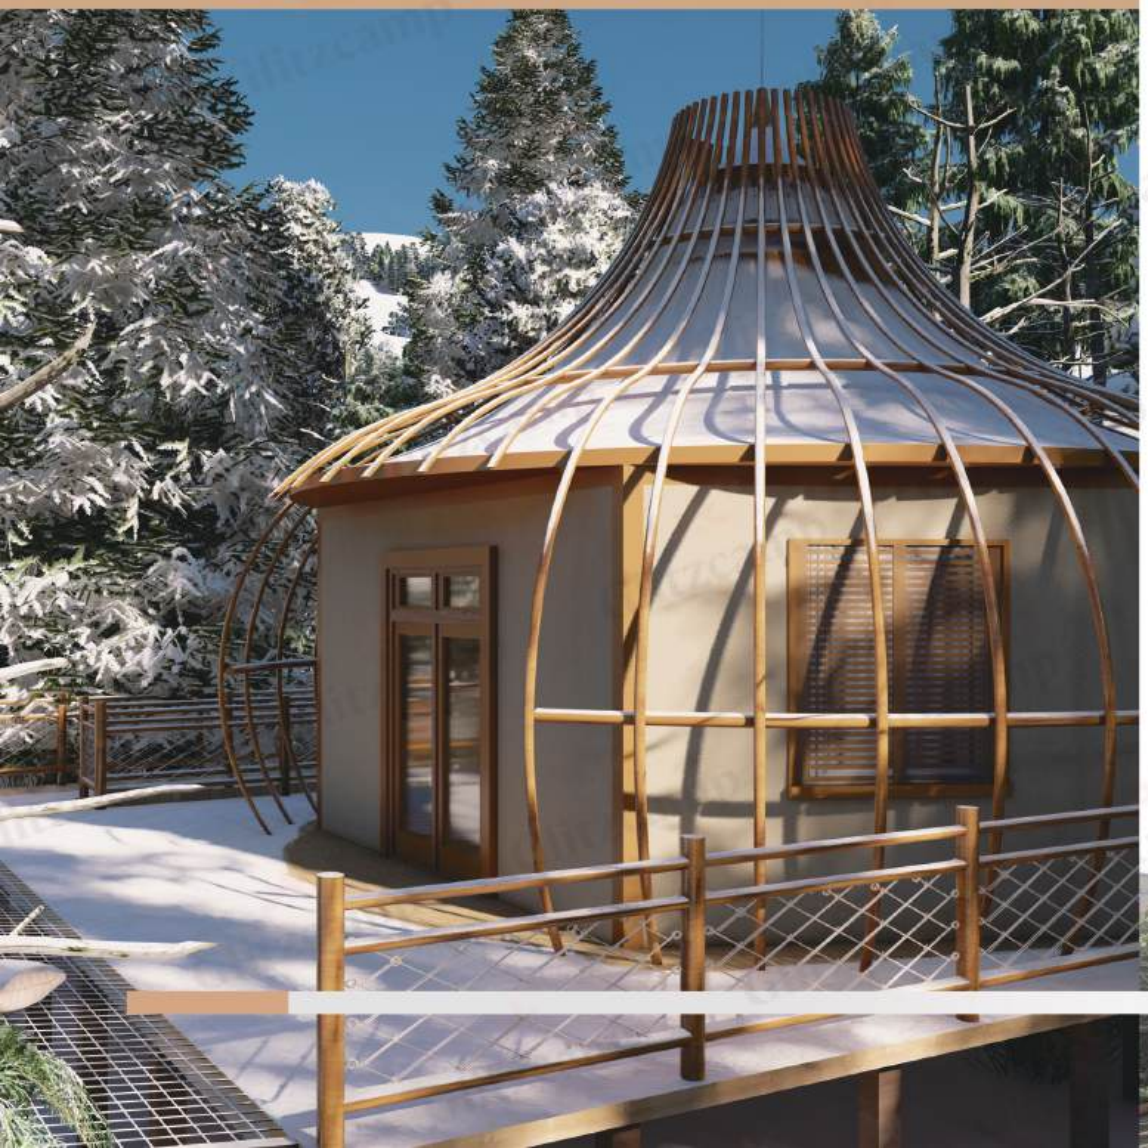
Glitzcamp

Glamping Tents | Safari Tents | Luxury Experience

AHY CHOOSE GLITZCAMP?



Glitzcamp' Brand Introduction

Glitzcamp is a sub-brand of Shelter, founded in 2016. It is committed to creating high-quality prefabricated outdoor spaces. It covers one-stop outdoor solutions such as campsite planning, cultural tourism design planning, glamping equipment research and development, design and sales. Since its establishment, Glitzcamp's products have won global market recognition for their excellent quality and unique design. Glitzcamp's products are not only places for outdoor activities, but also partners for people to experience nature and enjoy the good times of life.

Professional Service Team

Glitzcamp has a professional service team that not only has rich industry experience, but is also proficient in multiple languages and can provide timely and efficient service support to customers from all over the world. Whether it is pre-sales consultation or after-sales maintenance, Glitzcamp's service team provides you with a one-stop solution.

Advanced Production Center

We have a large production base, with the Guangzhou factory covering an area of more than 30,000 square meters. The annual output of prefabricated buildings reaches 250,000 square meters. Products are exported to more than 120 countries and regions around the world. The production center is equipped with advanced production equipment and technology, enabling large-scale, high-efficiency production.

Strict Quality Control System

Glitzcamp has established a strict quality control system. From raw material procurement to final product delivery, every link is supervised by dedicated personnel to ensure the consistency and reliability of product quality. With its excellent quality and innovative spirit, Glitzcamp has won multiple industry awards, including high-tech enterprise, ISO quality management system, AEO customs certification, etc.

Efficient Transportation Solutions

Glitzcamp understands how important time is to you. The strong production capacity of the factory ensures fast delivery of goods. Whether you choose standard ocean shipping or priority air shipping, you can make the right choice based on your budget and

FRAME

6063-T5 Aluminum Alloy

Aluminum alloy is the preferred framing material for luxury camping tents, striking a balance between lightness and strength.

Lightweight: Much lighter than steel, ensuring easy installation while maintaining strength.

Corrosion Resistance: Resists corrosion and doesn't rust easily.

Strength-to-Weight Ratio: Offers comparable strength at a reduced weight.

Q235B Steel

Steel is frequently used for manufacturing tent connectors, such as hinges, bolts, and other fixtures.

Strength: Offers high strength and rigidity.

Stability: Provides additional stability in windy conditions or uneven terrains.

Durability: Undergoes special treatments to resist rust, prolonging tent lifespan.

MATERIAL

CANVAS

Durability: Canvas is robust, allowing tents to withstand significant wear and tear, ensuring longevity.

Breathability: Naturally woven canvas offers excellent ventilation, keeping the interior cool during hot weather.

Water Resistance: Special coating processes enhance water-resistant capabilities. When exposed to water, the fibers expand, preventing rainwater from seeping in.

Eco-friendliness: Prioritizing renewable natural resources ensures products are free from chemical pollutants and environmentally friendly.

OXFORD FABRIC

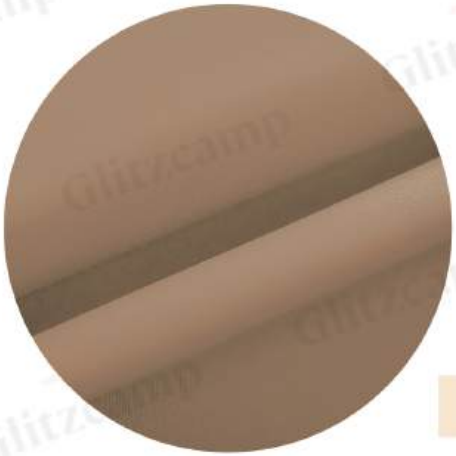
Cost-Effectiveness: Delivers excellent performance at a more economical price.

Water Resistance: Coated for water resistance, preventing moisture during rainy days.

Lightweight: Sturdy yet light, making tents easy to carry and set up.

Ease of Cleaning: A smooth surface allows for easy cleaning.

MATERIAL



NYLON

Durability: Nylon offers great resistance to potential tent tears and wear.

Elasticity: Maintains tent shape and resists deformation.

Water Resistance: Low water absorption ensures quick drying. Specialized coatings further enhance water resistance.

Wear Resistance: Used in joints and areas prone to wear, boosting the tent's overall durability.

POLYVINYL CHLORIDE FABRIC

Water Resistance: Entirely waterproof, ideal for rainy or humid conditions.

Weather Resistance: Resists UV rays, wind, and other harsh conditions.

Wear Resistance: Incredibly sturdy, resisting friction and wear.

Ease of Cleaning: Smooth surface simplifies tent maintenance.

SAFARI EXTREME

Safari extreme tents are constructed with premium aluminum alloys, creating a solid structure that withstands high winds snow, etc. The overall life cycle can reach 3-5 years with I year warranty. Safari extreme can be rapidly deployed in diverse locations with an intuitive setup process from conventional campsites to sparse areas with minimal facilities. In addition, it provides exceptional comfort to campers in a variety of outdoor environments with its inner tent, flooring, and interior decorations.

SAFARI LITE

Safari Lite is the premium glamping tent created by Glitzcamp to address operational issues with traditional camping tents. Compared to regular camping tents, Safari Lite has a longer lifetime, lower operating and maintenance costs, greater durability, and provides a superior living experience. The overall life cycle can reach 3-5 years with 1 year warranty. The modular design allows for easy repairs and part replacements.

MOUDLAR DECK

Constructed from high-intensity Polypropylene (PP), our modular deck is the unsung hero that stands strong against water, mold, and mildew. Whether in interlocking or roll form, it's the reliable foundation your glamping experience deserves.

One of the key benefits of the flooring is that it provides a stable surface for the glamping tent, which can protect the tent from being damaged. Additionally, the flooring can keep the tent clean and dry, which creates a more comfortable and enjoyable glamping experience.

Increase Your Dome's Value

MODULAR BATHROOM POD

Modular bathrooms are revolutionizing the glamping industry by redefining the guest experience. Unlike traditional construction, modular bathrooms are independent and can be built in a short time. It is easy to install so it saves a lot of time and costs in terms of labor and construction.

The modern design adds a touch of sophistication to the glamping experience. It also provides a luxurious and comfortable feeling for the guests. It is also customizable, allowing operators to choose from a variety of styles, colors, and materials to fit their specific branding and aesthetic requirements.

KEY BENEFITS

WIDE SELECTION
Complete range of shells solution

INNOVATIVE SOLUTION
Experience from glamping business, unique dry-wet separation system.

FLEXIBILITY
Integrated design, easy and fast onsite Installation.

SIMPLICITY OF REALIZATION AND SELF-CONTAINED
Lower cost of running the glamping site complex.

TIMES OPTIMIZATION
Reduction of on-stie labors, cost effective.

ELIMINATION IN THE GLAMPING IN DUSTRY
In-depth understanding of the industry end-users,listening to the real needs of the market,comprehensive and proactive coordination of the supply chainprofessional design,and construction with complete qualifications.

SOLAR ENERGY

Eco-Friendly Adventures
Why leave a carbon footprint when you can tread lightly? Our Solar System is a nod to sustainability. Enjoy the great outdoors knowing you're doing your bit for Mother Earth. It's like giving back to nature, one glamping trip at a time.

Durability in Every Weather
Rain dance or sunbathing, our Solar System stands by you. Crafted to endure, it promises to shine, come rain or shine. Think of it as your trusty sidekick, always ready for an adventure.

Why Choose Our Solar System?
Because it's the bridge between luxury and nature. It's not just a product; it's an experience. An experience of illuminated nights, powered adventures, and sustainable living.

The Future of Glamping
The future is bright, and it's powered by our Solar System. Step into a new era of glamping, where luxury meets sustainability.
